

## **Quick Q&A with 2023 Employee of the Year Leanne Sack:**

### **What led you to join Team Homefull?**

While I wanted to do something aligned with my degree in Sociology, I was also compelled toward Homefull from my own lived experience. In my first interactions with a client there is a moment when the person expresses self-doubt, such as blame, guilt, or even shame. The inspiring part to me is the glimmer of hope in their eyes when I say that they are not alone, there are people who care, and it is not their fault. This is much more than a job, it is a calling. I am honored to do this work every day. I have found a true work home here at Homefull!

### **Why should other professionals want to work at Homefull?**

Above all, there is a great team at Homefull, and that begins with leadership. We are provided support and yet the freedom to work with our clients to meet them where they are, to challenge each other, and to always do the best we can for our clients and the community at large. Further, the benefits are amazing!
